

About METAVERSE

The Metaverse is a complex concept. In recent years, the term has grown beyond Stephenson's 1992 vision of an immersive 3D virtual world, to include aspects of the physical world objects, actors, interfaces, and networks that construct and interact with virtual environments.

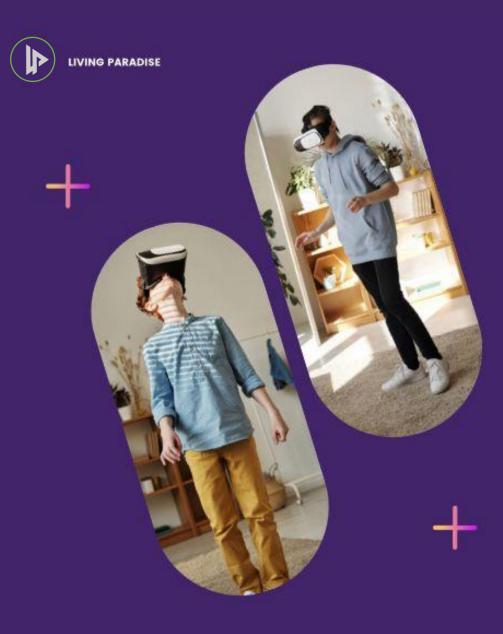

Living Paradise is a new edge of Metaverse. It is a virtual reality platform powered by Binance blockchain. Users can create experience, and monetize content and applications.

LIVING PARADISE ROADMAP?

LIP is a metaverse project that revolves on a game set in the future. The following roadmap maps out the goals and strategies set by the project team.

PHASE-1

- Idea Generation
- Team Build Up
- Research & Development
- Whitepaper Version 1
- Choosing a Blockchain & Token Creation
- Website Development

The very first phase of the Living Paradise is regarding the generation of the idea i.e. building up the basic project necessities by stepping in the shoes of cryptocurrency, researching the blockchain on which the token shall be created (BEP-20), creating the token and then developing the required website for the project. This major initial phase was completed in approx. 18 months.

PHASE -2 In Here

Phase - 2 of the project sets the goal of listing on a centralized exchange, Marketing of the project to its best and raise the maximum possible funds along with building a healthy organic community which can further lend a hand in the development in gaming sector.

- Centralized Exchange Listing
- Marketing & Fundraising
- Building a HealthyCommunity
- Game Development

Try The Best Experience In PHASE - 3

- Twitch Streaming
- E- Sports News
- Game Tournaments
- Multimedia Gaming Convention

The last phase involves Twitch Streaming, E- sports News, Game Touraments & Multimedia Gaming Convention.
